JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 1141) making emergency supplemental appropriations for the fiscal year ending September 30, 1999, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effects of the action agreed upon by the managers and recommended in the accompanying conference report.

Report language included by the House in the report accompanying H.R. 1141 (H. Rept. 106-64) which is not changed by the Senate in the report accompanying S. 544 (S. Rept. 106-8), and Senate report language which is not changed by the conference are approved by the committee of conference. The statement of managers while repeating some report language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

The conferees have agreed to include in this conference report on H.R. 1141 matters addressed in the House version of H.R. 1664 as an expedient approach to getting appropriations enacted into law for the important requirements related to the conflict in Kosovo and Southwest Asia (Operation Desert Fox).

TITLE I

EMERGENCY SUPPLEMENTAL APPROPRIATIONS

CHAPTER 1

DEPARTMENT OF AGRICULTURE

OFFICE OF THE SECRETARY

ADDITIONAL FARM ASSISTANCE

The conferees recognize the problems facing agricultural producers today and understand that the actual needs for disaster assistance funds provided last year likely will exceed the projections of the Department of Agriculture. The Department of Agriculture has projected that net farm income will decline \$3 billion below last year. The conferees expect the administration to monitor the situation closely and if necessary, submit requests for additional funds to the Congress for consideration.

EMERGENCY GRANTS TO ASSIST LOW-INCOME MIGRANT AND SEASONAL FARMWORKERS

The conference agreement provides \$20,000,000 for emergency grants to assist low-income migrant and seasonal farmworkers in-

stead of \$25,000,000 as proposed by the Senate. The House had no similar provision. This program will provide assistance to farm-workers in areas of California and Florida impacted by natural disasters.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

The conference agreement does not include language proposed by the Senate providing additional funding for the agricultural marketing assistance and the rural business enterprise grant programs. The House had no similar provision. The conferees encourage the Department to give consideration to rural business enterprise grant applications from those States in the Northeast where apples and onions are grown. The conferees strongly encourage the Agricultural Marketing Service to consider applications for grants from these States to assist in the development of successful marketing strategies for apples and onions.

FUNDS FOR STRENGTHENING MARKETS, INCOME, AND SUPPLY

(SECTION 32)

The conference agreement provides \$145,000,000 for activities under section 32 instead of \$150,000,000 as proposed by the Senate. The conference agreement also includes language proposed by the Senate as a general provision allowing the Secretary of Agriculture to waive the limitation established under section 32 on the amount of funds that may be devoted during fiscal year 1999 to any one agricultural commodity or product. The House had no similar provisions.

FARM SERVICE AGENCY

SALARIES AND EXPENSES

The conference agreement provides an additional \$42,753,000 for salaries and expenses for temporary employees of the Farm Service Agency as proposed by both the House and the Senate.

AGRICULTURAL CREDIT INSURANCE FUND PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides a total of \$109,609,000 for additional farm ownership loans, farm operating loans, emergency loans, and administrative expenses as proposed by both the House and the Senate, to remain available until September 30, 2000, as proposed by the House. The conference agreement also includes language to facilitate the repayment of funds re-directed from the Farm Service Agency Salaries and Expenses account in anticipation of supplemental funding, and to permit transfers between the farm operating and ownership guaranteed and direct lending programs subject to the prior approval of the House and Senate Committees on Appropriations.

EMERGENCY CONSERVATION PROGRAM

The conference agreement provides \$28,000,000 for the Emergency Conservation Program instead of \$30,000,000 as proposed by the Senate. The House had no similar provision. The conference agreement also includes statutory language to allow previously appropriated funds not needed for cost-sharing assistance to maple producers to replace taps and tubing to be available for other Emergency Conservation Program activities, and to allow funds to be used for certain streambank restoration.

The conferees are aware of a recent fire in Nebraska for which these funds may be available.

COMMODITY CREDIT CORPORATION FUND

LIVESTOCK INDEMNITY PROGRAM

The conference agreement provides \$3,000,000 for the livestock indemnity program as proposed by the Senate, modified to state that the program shall be effective only for certain losses. The House had no similar provision.

NATURAL RESOURCES CONSERVATION SERVICE

WATERSHED AND FLOOD PREVENTION OPERATIONS

The conference agreement provides \$95,000,000 for Watershed and Flood Prevention Operations instead of \$100,000,000 as proposed by the Senate, and deletes language proposed by the Senate regarding debris removal. The House had no similar provision. The conferees understand that authority currently exists for such debris removal activities.

RURAL ECONOMIC AND COMMUNITY DEVELOPMENT PROGRAMS

RURAL COMMUNITY ADVANCEMENT PROGRAM

The conference agreement provides \$30,000,000 for direct loans and grants to rural utilities, of which \$25,000,000 shall be for grants, as proposed by the Senate. The House had no similar provision.

RURAL HOUSING SERVICE

RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT

The conference agreement provides a total of \$1,534,000 for section 502 single-family housing loans and for section 504 housing repair loans to meet needs resulting from natural disasters as proposed by the Senate. The House had no similar provision.

RURAL HOUSING ASSISTANCE GRANTS

The conference agreement provides \$1,000,000 for very low-income housing repair to meet needs resulting from natural disasters as proposed by the Senate. The House had no similar provision.

GENERAL PROVISIONS, THIS CHAPTER

Senate Section 1101. The conference agreement does not include a general provision proposed by the Senate regarding the limitation established under Section 32 on the amount of funds devoted in a fiscal year to any one agricultural commodity or product. The House had no similar provision. This matter is addressed in the conference agreement under the heading “Funds for Strengthening Markets, Income, and Supply (Section 32)”.

Senate Section 1102. The conference agreement includes language to allow assistance for certain multiyear crop losses for the years in which established loss thresholds were met. The Senate provision would have made losses in additional years eligible. The House had no similar provision.

Senate Section 1103. The conference agreement includes language which provides \$28,000,000 in fiscal year 1999 and \$35,000,000 in fiscal year 2000 through the Commodity Credit Corporation for technical assistance activities in carrying out the Conservation Reserve Program and the Wetlands Reserve Program. The Senate provision addressed fiscal year 1999. The House had no similar provision.

Senate Section 1104. The conference agreement includes language proposed by the Senate regarding commercial fisheries. The House had no similar provision.

Senate Section 1105. The conference agreement provides \$70,000,000 for the livestock assistance program as proposed by the Senate, and adds language providing that the definition of livestock shall include reindeer. The House had no similar provision.

Senate Section 1106. The conference agreement does not include Section 1106, as proposed by the Senate, to extend the sales closing date for producers who applied for crop revenue coverage plus. The House had no similar provision. Similar provisions are included in Public Law 106–7.

Senate Section 4013. The conference agreement includes language proposed by the Senate regarding the Denali Commission Act of 1998, modified to include a contingent emergency declaration. The House had no similar provision.

CHAPTER 2

DEPARTMENT OF JUSTICE

IMMIGRATION AND NATURALIZATION SERVICE

SALARIES AND EXPENSES

ENFORCEMENT AND BORDER AFFAIRS

The conference agreement includes \$80,000,000, as an emergency appropriation, to remain available until expended, as proposed in the House bill, for 2,945 additional detention beds for the detention of criminal aliens from Central America and illegal aliens from Central America apprehended at or near the border. The conferees understand that these funds are necessary to prevent criminal aliens from Central America from being released into the community while awaiting deportation and to provide for detention

space at or near the border for apprehended illegal aliens from Central America and direct the Attorney General to administer these funds. The detention of aliens along the Southwest border serves as a major deterrent to potential illegal border crossings and is necessary to prevent large numbers of Central Americans from traveling north and illegally entering the U.S.

The conferees share the concerns raised in the House and Senate reports and strongly urge INS to address its management failures to adequately identify its detention needs, to request the necessary funds to prevent criminal aliens from being released, and to support the border enforcement strategy. The conferees recognize that the fiscal year 1999 budget request from INS only included minimal contract and State and local beds, approximately 100, necessitating the resource requirement that this supplemental attempts to address.

The conferees direct the INS to promptly deliver all previously requested and overdue reports.

OTHER PROVISIONS

Emergency Steel Loan Guarantee Act of 1999.—The Conference agreement deleted, without prejudice, the emergency steel loan guarantee program, as proposed by the Senate. No similar provision was included in the House bill.

Emergency Oil and Gas Guaranteed Loan Program Act.—The Conference agreement deleted, without prejudice, the emergency oil and gas guaranteed loan program, as proposed by the Senate. No similar provision was included in the House bill.

CHAPTER 3

DEPARTMENT OF DEFENSE—MILITARY

Chapter 3 of the conference agreement recommends a total of \$215,900,000 in new budget authority for the Department of Defense, instead of \$194,900,000 as proposed by the House and \$209,700,000 as proposed by the Senate, for disaster relief efforts resulting from Hurricanes Mitch and Georges in Central America.

The conferees agree to retain and amend language, as requested by the President and proposed by the House, which designates all appropriations as emergency requirements.

The following table provides details of the emergency supplemental appropriations in this chapter for disaster assistance related to Hurricanes Mitch and Georges.

MILITARY PERSONNEL

The conferees recommend \$16,300,000 as proposed by the House, instead of \$11,200,000 as proposed by the Senate, to support National Guard and Reserve participation in the Enhanced New Horizons readiness training exercises in Central America. In addition, the conferees agree to retain House language which would make certain appropriations available to the Guard and Reserve subject to receipt of an emergency budget request by the President to the Congress.

OPERATION AND MAINTENANCE

The conferees agree to provide \$199,600,000 for Operation and Maintenance costs associated with hurricane relief efforts in Central America, instead of \$178,600,000 as proposed by the House and \$198,500,000 as proposed by the Senate.

New Horizons Transfer Fund.—The conferees agree to provide \$46,000,000 for the “New Horizons Exercise Transfer Fund”, a new appropriations account proposed by the Senate. The conferees direct that the Department of Defense provide a report to the House and Senate Committees on Appropriations not later than June 30, 1999, which describes the allocation of funding from this account to the military services and defense-wide activities, and explains the specific projects and programs supported by this funding.

Operation and Maintenance, Marine Corps.—The conferees agree to provide \$2,400,000. This amount reflects a technical correction needed to properly distribute funding which was originally requested for “Operation and Maintenance, Navy”.

Operation and Maintenance, Defense-Wide.—The conferees agree to retain language proposed by the Senate which directs that \$20,000,000 within this appropriation is only for the CINC Initiative Fund. The conferees also agree to delete language proposed by the Senate which rescinds \$217,000,000 due to changes in the price of bulk fuel.

GENERAL PROVISIONS, THIS CHAPTER

The conferees agree to delete language proposed by the Senate which earmarks funds previously appropriated to the Department of Defense.

The conferees agree to retain and amend section 301, as proposed by the Senate, which waives the requirement for reimbursement of expenses for five additional foreign students at the military service academies.

The conferees agree to delete language proposed by the Senate which earmarks funds for the settlement of claims arising from the U.S. Marine Corps accident near Cavalese, Italy.

The conferees agree to retain section 302, as proposed by the Senate, which would allow military technicians to receive a per diem expense while deployed on active duty.

The conferees agree to delete language proposed by the Senate which authorizes the Department to obtain operational support aircraft through a multiyear lease.

The conferees agree to retain section 303, as proposed by the Senate, which authorizes the sale of 17,383 tons of zirconium ore.

The conferees agree to include section 304, which allows the Joint STARS program to use current year funds to adjust, record, and liquidate obligations associated with aircraft procured in fiscal years 1995 and 1996. The Joint STARS program refurbishes used aircraft before installing the new mission electronics. Unfortunately, these aircraft have been more difficult to refurbish than originally anticipated. Since the capability offered by Joint STARS is urgently needed to support military operations, disruptions to the delivery schedule through lack of funds would be detrimental to U.S. military capabilities. The general provision caps the authority to use previously appropriated funds at \$50,700,000, and requires the Air Force to notify the congressional defense committees of the specific sources to be used for Joint STARS obligations. The provision further requires the Air Force to follow all normal reprogramming procedures.

CHAPTER 4

BILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

AGENCY FOR INTERNATIONAL DEVELOPMENT

INTERNATIONAL DISASTER ASSISTANCE

The conference agreement appropriates \$25,000,000 for the International Disaster Assistance account as proposed by the House. The Senate proposed \$35,000,000.

OTHER BILATERAL ECONOMIC ASSISTANCE

ECONOMIC SUPPORT FUND

The conference agreement appropriates \$50,000,000 in the Economic Support Fund for Jordan, the same amount as proposed by both the House and the Senate.

CENTRAL AMERICA AND THE CARIBBEAN EMERGENCY
DISASTER RECOVERY FUND

The conference agreement appropriates \$621,000,000 for the Central America and the Caribbean Emergency Disaster Recovery Fund (CACEDRF), the same amount proposed by the House. The Senate proposed \$611,000,000 for the CACEDRF. The conference agreement includes language requiring the President to submit to Congress a specific budget request designating the entire amount as an emergency. The funds are to remain available until September 30, 2000.

The conference agreement provides transfer authority from the CACEDRF to several other accounts for the administrative and oversight costs of implementing the emergency recovery program in the region. For Operating Expenses of the Agency for International Development, the conference agreement appropriates up to \$5,500,000 to remain available until September 30, 2000. The House provided \$5,000,000 and the Senate provided \$6,000,000.

For Operating Expenses of the AID Inspector General, the conference agreement appropriates up to \$1,500,000, as proposed by the Senate, to be used for costs of audits, inspections, and other activities associated with the use of funds in the CACEDRF. The House proposed up to \$2,000,000. The conference agreement provides up to \$500,000 for the General Accounting Office to audit and monitor the use of CACEDRF funds, as proposed by the Senate. The House bill contained no provision on this matter.

The conferees continue to seek to prevent any misuse of U.S. foreign aid and have, therefore, made available funds from this account for the AID Inspector General and the General Accounting Office. In addition, the conferees believe that AID and GAO should help recipient governments play a central role in ensuring that this emergency assistance is utilized properly. The conferees encourage AID to support the efforts of recipient governments to engage independent private sector organizations to help improve institutional capability to resist corrupt practices and to report on the possible misuse of funds.

The conference agreement provides that not less than \$2,000,000 from within the CACEDRF should be used for landmine clearing and the removal of unexploded ordinance in Nicaragua and Honduras as proposed by the Senate amendment. The House bill contained no provision on this matter.

The conference agreement prohibits the use of non-project assistance from this account as proposed by the House. The Senate allowed non-project assistance subject to the regular notification procedures of the Appropriations Committee.

The managers concur with report language under this heading in both the Senate and House reports, and encourage OMB and AID to regularly consult with the Committees on implementation of recommendations and directives contained in the reports.

The Senate included bill language encouraging AID to promote reforestation and energy conservation. The House bill contained no similar provision. The conference report contains no bill language specifically related to these two issues, but the managers agree on the importance of energy and reforestation and believe that these

priorities should be integrated into AID's overall relief and reconstruction efforts in the region. The conferees support funding to promote the critical energy sector through the use of energy-efficient services and technologies and, where feasible, renewable energy such as biomass. Prompt and full restoration of power generation facilities at the El Cajon Dam in Honduras is of special interest to the Conferees because of the foreign exchange and environmental costs of alternative sources. The managers expect that AID will undertake efforts to promote reforestation, with careful attention to the choice, placement, and management of species of trees consistent with watershed management objectives designed to minimize future storm damage. Further, the managers agree on the importance of technology transfers in support of reforestation and agro-forestry.

The Senate included bill language providing up to \$10,000,000 from within the CACEDRF to establish a scholarship fund at Zamorano Agricultural University in Honduras for low-to-middle income students. The House bill contained no provision on this matter. The managers believe greater access to education is essential to long-term development in Central America and encourage AID to assist Central American governments in increasing lower income student enrollment in the region's colleges and universities, especially at Zamorano University.

The conferees encourage the use of the Pan American Health Organization for the implementation and coordination of regional infectious disease prevention programs funded in this account.

The conference agreement includes language waiving certain laws relating to expenditure of funds by AID. The Senate bill provided broad authority to waive existing laws related to contracts, subject to AID reporting to Congress. The House contained no similar provision. While the conference agreement contains no waiver for AID contracting authority, the conferees believe that existing AID contracting and procurement regulations already permit AID to exercise significant latitude in making and amending contracts in urgent and compelling situations. The assistance provided in this account is to respond to urgent and compelling needs in the region, and, therefore, AID should exercise its contracting waivers to help reduce delays in AID's procurement processes so that these supplemental funds can reach those in need more rapidly. The managers expect AID to keep the Committees on Appropriations informed of the use of contract and procurement waivers for projects funded from CACEDRF funds. The conference agreement allows AID to charge to the CACEDRF certain financial obligations made from other AID development accounts after April 30, 1999. The managers expect that, to the extent practicable, contracts and grants should be awarded to U.S. private organizations and individuals, including those linked with indigenous Central American counterparts, provided that such a preference does not delay or hinder the delivery of assistance. The conferees encourage the use of the private sector, especially in such technical areas as mapping, to the maximum extent possible. New base maps that identify future flood hazards are urgently needed to help mitigate risks associated with proposed reconstruction efforts.

At the request of the Administration, the agreement also includes bill language making inapplicable section 110 of the Foreign Assistance Act regarding host country contributions to certain U.S. development projects. The managers are aware that the governments of the affected nations bear the primary responsibility for their nations' reconstruction and have already dedicated enormous resources to relief and reconstruction efforts. These nations are expected to spend a considerable percentage of their annual government budget on reconstruction projects in upcoming years, making the need for section 110 cost sharing requirements unnecessary.

The conference agreement reiterates that all funds in the CACEDRF as well as funds appropriated in this Act which are in addition to funds made available under title II of the 1999 Foreign Operations Act, be subject to section 580 of the 1999 Foreign Operations Act, regarding the ceiling on overall population planning assistance. This is similar to the provision recommended by the House. The Senate bill contained no similar provision.

The conferees encourage AID to consider Costa Rica among those nations eligible for funds from this account as a result of the costs assumed by Costa Rica in providing refuge to hurricane victims from neighboring Central American nations.

The conference agreement also includes technical language to permit any transfer of funds to the Export-Import Bank to be used as subsidy credit authority under the Credit Reform Act of 1990.

DEPARTMENT OF STATE

INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT

The conference agreement appropriates \$23,000,000 for anti-narcotics drug research and development programs as proposed by the Senate. Further, the conference agreement makes the funds available only after the President transmits to Congress a budget request that includes a designation of the funds as an emergency need. The House bill contained no similar provisions. The conferees expect that any future funding for drug research programs will be funded through the Office of National Drug Control Policy.

The conferees are aware that Central American and Caribbean nations are facing budget shortfalls in government anti-narcotics and drug interdiction programs created due to the redirection of funding to urgent reconstruction efforts. Since these supplemental funds will increase the overall resources available for the State Department narcotics control programs for fiscal year 1999, the conferees encourage the State Department to consider dedicating additional anti-narcotics resources to nations affected by the hurricanes.

DEPARTMENT OF THE TREASURY

DEBT RESTRUCTURING

The conference agreement appropriates \$41,000,000 for debt restructuring as provided by both the House and the Senate. The conference agreement requires that all funds for the Central America Emergency Trust Fund, administered by the World Bank, are subject to the regular notification procedures of the Committees.

MILITARY ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

FOREIGN MILITARY FINANCING PROGRAM

The conference agreement appropriates \$50,000,000 for Foreign Military Financing grants for Jordan, as provided by the House and Senate.

GENERAL PROVISIONS—THIS CHAPTER

The conference agreement includes a general provision designating funds in this chapter as an emergency under the Balanced Budget and Emergency Deficit Control Act of 1985.

The conference agreement includes a general provision providing a supplemental appropriation of \$6,500,000 for the Economic Support Fund for election monitoring and related activities for East Timor.

The conference agreement includes a general provision, similar to a provision in the Senate amendment, that transfers responsibility for certain counternarcotics research and development activities from the Department of Agriculture to the Department of State.

CHAPTER 5

The managers understand that the estimates, which form the basis for the emergency construction appropriations herein, are based on preliminary damage determinations. Refinements and reestimates, that result in allocations different from preliminary projections, may be necessary. The managers expect funds to be provided consistent with established priorities. Before proceeding with final allocations to the field, the managers expect the agencies to provide a report that identifies all of the projects considered for funding, including any changes from earlier estimates.

DEPARTMENT OF THE INTERIOR

UNITED STATES FISH AND WILDLIFE SERVICE

CONSTRUCTION

The managers have provided \$12,612,000 for construction, contingent on a Presidential declaration of emergency, as proposed by the Senate instead of no funding as proposed by the House. The amount included herein provides funds for emergency repairs associated with Federally-declared emergencies in the Pacific Northwest and for the full cost of emergency replacement of generating equipment at Midway Atoll National Wildlife Refuge.

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

RECONSTRUCTION AND CONSTRUCTION

The managers have provided \$5,611,000, contingent on a Presidential declaration of emergency, for reconstruction and construc-

tion to address damages from Hurricane Georges and other natural disasters in Puerto Rico as proposed by the House instead of no funding as proposed by the Senate.

OTHER RELATED AGENCY

UNITED STATES HOLOCAUST MEMORIAL COUNCIL

HOLOCAUST MEMORIAL COUNCIL

The managers have provided \$2,000,000, contingent on a Presidential declaration of emergency, for the Holocaust Memorial Council to address security needs as proposed by the Senate instead of no funding as proposed by the House.

GENERAL PROVISION—THIS CHAPTER

Section 501.—The managers have modified language proposed by the Senate (section 2319) dealing with compensation for Dungeness crab fishermen in Glacier Bay, Alaska and deferring National Park Service Construction funding. The deferral proposed by the Senate has been deleted. The modification to the compensation language is described below.

The managers have agreed to revisions to the Senate provision expanding the compensation program for those negatively affected by restrictions on commercial fishing. In addition, full funding of \$26,000,000, contingent on a Presidential declaration of emergency, is provided to implement the compensation program. To provide a transition period for fishermen, crew, fish processors, communities, and others negatively affected, the managers have agreed to suspend the ban on commercial fishing through the upcoming fishing season to provide fishermen an additional season to fish. During the fishing season, the managers expect the Department of the Interior, after consulting fully with the State of Alaska, to expedite development of the compensation program so that compensation can be distributed no later than the end of the fishing season.

The managers have not included language as proposed by the Senate (section 1403) providing royalty reductions for oil and gas producers. The House had no similar provision.

CHAPTER 6

INDEPENDENT AGENCY

ENVIRONMENTAL PROTECTION AGENCY

SCIENCE AND TECHNOLOGY

Deletes language proposed by the Senate which would have rescinded \$10,000,000 for research through the Climate Change Technology Initiative.

FEDERAL EMERGENCY MANAGEMENT AGENCY

DISASTER RELIEF

The conferees have agreed to provide \$900,000,000 for disaster relief, instead of \$372,000,000 as requested by the President in a

letter dated May 10, 1999. This issue was not addressed by either the House or the Senate. Included in this amount are funds needed to allow FEMA to respond to the tornado-related damage in Oklahoma, Kansas, Texas, and Tennessee, including the repair and replacement of public buildings such as schools and public libraries. In addition, the amount provided should be sufficient to meet the immediate needs associated with any disaster events which occur in the remaining months of this fiscal year. The conferees are very troubled that the Congress was not notified in a timely manner of the fact that disaster close-out activities were resulting in a rate of obligation much faster than normal, which would have resulted in a year-end shortfall in the disaster relief fund absent supplemental appropriations. It is expected that the administration will monitor closely the obligation rate and provide timely and accurate data on the status of the disaster relief fund in the future. The amount provided is available only to the extent that an official budget request for a specific amount, which includes designation of the entire amount of the request as an emergency, is transmitted by the President to the Congress.

DISASTER ASSISTANCE FOR UNMET NEEDS

The conferees have provided \$230,000,000 for disaster assistance for unmet needs instead of \$313,600,000 as proposed by the Senate and no funds as proposed by the House. The conferees have included bill language intended to give the Director of the Federal Emergency Management Agency (FEMA) sufficient flexibility to respond to the unmet needs of Presidentially-declared disasters occurring during fiscal years 1998 and 1999.

Appropriations totaling \$313,600,000 had previously been made to the Department of Housing and Urban Development (HUD) in order to address such unmet needs. However, the conferees are concerned with HUD's inability to move aggressively to implement an effective disaster relief program for such needs and have concluded that FEMA is the appropriate Federal agency to carry out this program. Accordingly, FEMA should make every effort to move expeditiously to provide for these unmet needs to the greatest extent possible.

In this regard, the conferees have provided flexibility beyond that normally available to FEMA to respond to Presidentially-declared events occurring during 1998 and 1999. Among these is the 1998 Northeast ice storm, which significantly damaged large areas of New York, Vermont, New Hampshire, and Maine. Except for Maine, the Director is urged to review promptly and respond to the needs of this area. In particular, the conferees are aware of the unprecedented impact of this storm on the electrical infrastructure of the region, and that the costs associated with restoring essential electric service constitutes the largest single unmet need.

In addition, FEMA is expected to work with Puerto Rico regarding the damage caused by Hurricane Georges, as well as the States of Mississippi and Kansas to address the damage resulting from recent floods in those states. The conferees understand that damage estimates provided by Mississippi total some \$66,000,000 for buy-outs and other assistance. Similarly, the conferees note the devastation caused by the 1998 Halloween flood in Kansas, and

strongly urge FEMA to provide sufficient funds for buy-out assistance and appropriate compensation for homeowners and businesses in Butler, Cowley, and Sedgwick counties. Such buy-out requirements have been estimated to be \$20,000,000.

Finally, the conferees urge FEMA to respond promptly to the appropriate disaster needs of the City of Kelso, Washington.

TITLE II—EMERGENCY NATIONAL SECURITY SUPPLEMENTAL APPROPRIATIONS

CHAPTER 1

DEPARTMENT OF AGRICULTURE

PUBLIC LAW 480 PROGRAM AND GRANT ACCOUNTS

The conference agreement provides an additional \$149,200,000 for assistance under title II of Public Law 480 for humanitarian food aid in the Balkans and other regions of need. The House and the Senate had no similar provision.

CHAPTER 2

DEPARTMENT OF STATE

ADMINISTRATIVE OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

The conference agreement includes \$17,071,000, as an emergency appropriation, to remain available until expended, as proposed in the House bill. This amount provides for the costs of diplomatic efforts related to the Kosovo crisis, including the costs of shutting down embassy operations in Belgrade and enhancing security at posts in the region.

SECURITY AND MAINTENANCE OF UNITED STATES MISSIONS

The conference agreement includes \$50,500,000, as an emergency appropriation, to remain available until expended, as provided in the House bill. Of this amount, \$45,500,000 is provided above the request, and release of any portion of this funding is contingent upon a Presidential emergency designation. The amount above the request is provided for the costs of constructing fully secure State Department facilities in the Kosovo region, including, if applicable, costs of constructing Marine Security Guard quarters. Prior to the expenditure of any portion of the funds provided above the request, the Department is directed to submit a notification to the Senate and House Committees on Appropriations containing project spending plans. The conferees agree that any such spending plans shall address the highest priority security construction needs in the region and result in at least one embassy facility in the region that fully meets existing State Department security standards.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

The conference agreement includes \$2,929,000, as an emergency appropriation, to remain available until expended, as pro-

posed in the House bill. The conference agreement includes language transferring \$500,000 to the Peace Corps and \$450,000 to the U.S. Information Agency for the costs of evacuating personnel and dependents of those agencies.

CHAPTER 3

DEPARTMENT OF DEFENSE—MILITARY

Chapter 3 of the conference agreement recommends a total of \$10,196,495,000 in new budget authority for the Department of Defense, for costs resulting from ongoing contingency operations in Southwest Asia and Kosovo, as well as other urgent high priority military readiness matters.

The following table provides details of the emergency supplemental appropriations in this Chapter for contingency operations and military readiness.

Grand Total	5,458,069	11,239,995	10,196,495

The conferees note that the funding provided in the conference agreement for Operation Allied Force will increase the deficit for

fiscal year 1999 excluding the surpluses generated by the Social Security trust funds. The conferees urge the committees of jurisdiction to develop legislation that will provide that the first claim on any surplus generated by the Federal government excluding the Social Security trust funds in fiscal years 2000 and 2001 be used to cover the fiscal year 1999 outlays resulting from the conference agreement for the cost of Operation Allied Force.

REPORTING REQUIREMENTS

The conferees agree to the reporting requirements directed in House Report 106-125 regarding obligation of funds provided in this chapter.

MILITARY PERSONNEL

The conferees agrees to provide \$16,469,000, as recommended in the budget request and proposed by the House, for additional military personnel pay and allowances in support of contingency operations in Southwest Asia.

OVERSEAS CONTINGENCY OPERATIONS TRANSFER FUND

The conferees agree to provide \$5,007,300,000, instead of \$5,219,100,000 as proposed by the House, for the "Overseas Contingency Operations Transfer Fund" for costs relating to Operation Allied Force and related NATO activities concerning Kosovo, and operations in Southwest Asia. Of this amount, \$3,907,300,000 is provided for personnel and operations costs stemming from these operations. An additional \$1,100,000,000 is provided on a contingent emergency basis to meet expected munitions and readiness-related Kosovo expenses, and will be made available only to the extent funds are requested in a subsequent budget request by the President.

PROCUREMENT

The conferees agree to provide \$984,300,000 instead of \$1,084,300,000 as proposed by the House, for requirements associated with operations in Kosovo and Southwest Asia. Of this amount, the conferees agree to provide \$684,300,000 to various procurement accounts, for programs specified in the President's request to Congress, to replenish inventories of munitions used during the conduct of these operations. An additional \$300,000,000 is provided in a new account, the "Operational Rapid Response Transfer Fund", instead of \$400,000,000 as proposed by the House.

READINESS ENHANCEMENTS

The conferees agree to provide \$2,350,000,000 in contingent emergency appropriations, instead of \$3,081,700,000 as proposed by the House, to rectify emerging readiness concerns. This funding includes: \$1,124,900,000 for spare parts and associated logistical support needed to improve the mission capable rates of various weapons systems; \$742,500,000 for unfunded depot maintenance requirements; \$100,000,000 necessary for recruiting initiatives; \$200,200,000 for readiness related training programs; and

\$182,400,000 for unfunded expenses related to base operations support.

With respect to the funding provided for spare parts and logistics, depot maintenance, and readiness-related training programs, the conference agreement provides that these funds shall be allocated by the Secretary of Defense and is subject to prior notification to the congressional defense committees. The conferees are aware that out of area operations have caused our regional commanders to experience significant shortages and dislocations. The conferees expect the Secretary to give priority to meeting the unfunded requirements of the regional commanders in chief in allocating these amounts. The conferees recognize the dynamic nature of requirements in these areas, and believe it prudent to provide the Secretary with sufficient flexibility to meet time-urgent demands in order to ensure that overall readiness is not degraded. The conference agreement provides funding for these areas with authority to transfer the funds as required to the appropriate accounts. The conferees direct that the Secretary of Defense provide written notification to the congressional defense committees 15 days prior to the transfer of any funds provided by these sections.

PERSONNEL PROGRAMS

The conference agreement includes \$1,838,426,000 for the military personnel accounts for military pay and retirement costs, as proposed by the House. The obligation of these funds would be subject to the enactment of subsequent authorizing legislation and the designation of the funds as an emergency appropriation by the President.

CLASSIFIED PROGRAMS

The conference agreement concerning classified activities is contained in a classified annex to this statement of managers.

GENERAL PROVISIONS—THIS CHAPTER

The conferees agree to retain and amend section 2001, as proposed by the House, which provides for an increase in the fiscal year 1999 transfer authority available to the Department of Defense.

The conferees agree to retain section 2002, as proposed by the House, which provides that \$10,000,000 of the funds provided in this Act may be available to the common funded budgets of NATO.

The conferees agree to retain and amend section 2003, as proposed by the House which provides authorization for funds for intelligence activities.

The conferees agree to retain and amend section 2004, as proposed by the House, which extends special authorities for contracts awarded or modified for the Joint Direct Attack Munition (JDAM) program.

The conferees agree to retain section 2005, as proposed by the House, which requires the President to seek an equitable reimbursement from the North Atlantic Treaty Organization (NATO), member nations of NATO, and other appropriate organizations and

nations for the costs incurred by the United States government in connection with Operation Allied Force.

The conferees agree to retain section 2006, as proposed by the House, which directs that within thirty days of enactment of this Act, the President shall transmit to Congress a report, in both classified and unclassified format, on current United States government operations involving Kosovo.

The conferees agree to retain and amend section 2007, as proposed by the House, which appropriates \$1,124,900,000, designated as contingent emergency appropriations, only for urgent shortfalls in Department of Defense spare and repair parts and associated logistical support.

The conferees agree to retain and amend section 2008, as proposed by the House, which appropriates \$742,500,000, designated as contingent emergency appropriations, only for urgent shortfalls in the depot level maintenance and repair requirements of the Department of Defense.

The conferees agree to retain and amend section 2009, as proposed by the House which appropriates \$100,000,000, designated as contingent emergency appropriations, only for urgent shortfalls in Department of Defense recruiting programs.

The conferees agree to retain and amend section 2010, as proposed by the House which appropriates \$200,200,000, designated as contingent emergency appropriations, only for urgent readiness related training and operations tempo requirements of the Department of Defense.

The conferees agree to retain and amend section 2011, as proposed by the House which appropriates \$182,400,000, designated as contingent emergency appropriations, only for urgent base operations support requirements of the Department of Defense.

The conferees agree to retain section 2012, as proposed by the House which appropriates \$1,838,426,000, designated as contingent emergency appropriations, for the military personnel accounts, only for military pay and retirement costs.

CHAPTER 4

BILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

AGENCY FOR INTERNATIONAL DEVELOPMENT

INTERNATIONAL DISASTER ASSISTANCE

The conference agreement appropriates \$163,000,000, as proposed by the House, for "International Disaster Assistance", to remain available until expended. The entire amount shall be available only to the extent that an official budget request for a specific dollar amount, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, is transmitted by the President to the Congress. The Senate amendment did not address this matter.

OTHER BILATERAL ECONOMIC ASSISTANCE

ECONOMIC SUPPORT FUND

The conference agreement appropriates \$105,000,000, as proposed by the House, for “Economic Support Fund”, to remain available until September 30, 2000, for assistance for Albania, Macedonia, Bulgaria, Bosnia-Herzegovina, Montenegro, and Romania, and for investigations and related activities in Kosovo and in adjacent entities and countries regarding war crimes. These funds shall be available notwithstanding any other provision of law except section 533 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1999 (as contained in Division A, section 101(d) of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999 (Public Law 105–277)). In addition, the requirement for a notification through the regular notification procedures of the Committees on Appropriations contained in subsection (b)(3) of section 533 shall be deemed to be satisfied if the Committees on Appropriations are notified at least 10 days prior to the obligation of such funds.

The House bill included the same language, except that the requirement for a notification was reduced to 5 days. The Senate amendment did not address this matter.

WAR CRIMES

The conference agreement includes authority to provide funding to the International Criminal Tribunal for the Former Yugoslavia for investigations and prosecutions of war crimes in Kosovo, and for related activities. The managers note that the number of victims of war crimes in Kosovo may far exceed what is currently known. The managers believe the Administration’s request of \$5,000,000 for the War Crimes Tribunal is inadequate, and strongly recommend that up to an additional \$13,000,000 be made available to meet the full request of the Tribunal, in consultation and coordination with other donors. In addition, the managers strongly recommend that \$10,000,000 be provided to the State Department’s Human Rights and Democracy Fund, to promptly obtain information from fleeing refugee victims and witnesses, to assist in providing identity documents to refugees whose papers and property titles have been confiscated, to provide counseling to rape victims, and for related purposes. Funds for these purposes may be derived from other appropriation accounts provided under this chapter.

ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES

The conference agreement appropriates \$120,000,000 for “Assistance for Eastern Europe and the Baltic States”, to remain available until September 30, 2000, of which up to \$1,000,000 may be used for administrative costs of the U.S. Agency for International Development. Funds appropriated under this heading are subject to the regular notification procedures of the Committees on Appropriations.

The House bill included the same language, but appropriated \$75,000,000. The Senate amendment did not address this matter.

LONG-TERM DEVELOPMENT AND RECONSTRUCTION

The managers agree that none of the funds appropriated under this heading or in this chapter are to be used to implement a long-term, regional program of development or reconstruction in South-eastern Europe. These funds are appropriated for emergency support of refugees and displaced persons and the local communities directly affected by the influx of refugees. The appropriation for the Economic Support Fund is intended for short-term, emergency balance of payments support for the countries listed in the bill language, and for investigations of war crimes.

DEPARTMENT OF STATE

MIGRATION AND REFUGEE ASSISTANCE

The conference agreement appropriates \$266,000,000 for "Migration and Refugee Assistance", to remain available until September 30, 2000, of which not more than \$500,000 is for administrative expenses. The entire amount shall be available only to the extent that an official budget request for a specific dollar amount, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, is transmitted by the President to the Congress. In addition, funds made available for the Office of the United Nations High Commissioner on Refugees (UNHCR) are subject to the regular notification procedures of the Committees on Appropriations, but the regular requirement for a 15 day notification prior to the obligation of funds is reduced to 10 days. The managers' intent is that the notification requirement applies only to funds appropriated in this account by this Act.

The House bill included \$195,000,000 for this account. The Senate amendment did not address this matter.

UNITED STATES EMERGENCY REFUGEE AND MIGRATION ASSISTANCE
FUND

The conference agreement appropriates \$165,000,000 for "United States Emergency Refugee and Migration Assistance Fund". The entire amount shall be available only to the extent that an official budget request for a specific dollar amount, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, is transmitted by the President to the Congress.

The House bill included \$95,000,000 for this account. The Senate amendment did not address this matter.

GENERAL PROVISIONS—THIS CHAPTER

The conference agreement includes a general provision designating funds in this chapter as an emergency under the Balanced Budget and Emergency Deficit Control Act of 1985.

The conference agreement includes a general provision proposed by the House that provides that the value of commodities and services authorized by the President through March 31, 1999,

to be drawn down under the authority of section 552(c)(2) of the Foreign Assistance Act of 1961 to support international relief efforts relating to the Kosovo conflict shall not be counted against the ceiling limitation of that section. In addition, such assistance may be made available notwithstanding any other provision of law.

The managers note that funds provided in this Act as supplemental appropriations for the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1999, are subject to section 526 of said Act.

DONATED EQUIPMENT

The conferees are aware that a large number of computers and computer equipment have been donated to various international agencies and non-governmental organizations to assist with the refugee crisis in the Balkans. The conferees support the use of emergency supplemental funds to assist organizations such as the National Technology Alliance for on-site computer network development, hardware and software integration, and to assess the urgent on-site computer needs of organizations assisting refugees. In addition, the conferees encourage the use of these funds for the development and implementation of reliable systems to register refugees and provide identification cards and other document processing.

CHAPTER 5

DEPARTMENT OF HEALTH AND HUMAN SERVICES

ADMINISTRATION FOR CHILDREN AND FAMILIES

REFUGEE AND ENTRANT ASSISTANCE

The conference agreement includes an appropriation of not to exceed \$100,000,000 for costs related to assisting in the temporary resettlement of displaced Kosovar Albanians who have recently come to this country. The agreement provides that the appropriation is designated an emergency requirement under the Budget Act. No funds were included for this in either the House or Senate bills. The conferees have included these funds in response to an unofficial request from the Administration to address the refugee emergency that has arisen as a result of the conflict in the Balkans.

CHAPTER 6

DEPARTMENT OF DEFENSE

MILITARY CONSTRUCTION

The conferees have established a "Military Construction Transfer Fund" in the amount of \$475,000,000, contingent on the Presidential declaration of an emergency. This fund is to be used for construction of mission, readiness and force protection items in relation to the conflict in the Balkans, and other contingencies throughout the region. The Secretary of Defense is given the authority to determine the individual items to be provided by this appropriation and to transfer these funds only to the appropriate

military construction accounts. The Under Secretary of Defense (Comptroller) is directed to submit an after the fact notification of transfers from this fund and the individual projects to be provided to the appropriate committees of Congress.

CHAPTER 7

DEPARTMENT OF TRANSPORTATION

COAST GUARD

OPERATING EXPENSES

The conference agreement provides an emergency appropriation of \$200,000,000 for Coast Guard “Operating expenses”, to address ongoing readiness requirements. The conferees expect the Coast Guard to use these funds for activities such as the military pay raise, compensation parity (basic allowance for housing), DOD authorization act entitlements, military health care, recruiting, workforce readiness tools, DOD parity, intermediate and depot-level maintenance, and additional staffing. These funds are made available until September 30, 2000, and are only available upon designation by the President of an emergency requirement. The conferees direct that requests to obligate these funds be submitted to the Congress under the normal reprogramming procedures. The House and Senate bills proposed no similar appropriation.

TITLE III—SUPPLEMENTAL APPROPRIATIONS

CHAPTER 1

DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

COUNTERTERRORISM FUND

TOPOFF Exercise.—The conferees understand the need for clarification of how the TOPOFF exercise should occur. In addition to the direction provided in previous Committee reports, contracting for this effort should be done with those organizations who have a known track record with Weapons of Mass Destruction (WMD) exercises. This exercise should be co-chaired and administered without notice by the Attorney General and the Director of the Federal Emergency Management Agency (FEMA). The no-notice feature of this exercise should be modeled on the manner in which such exercises have been conducted by the Department of Defense. In order to fairly and accurately represent an actual event, both the FBI and the Office of Justice Programs should have one representative participating in the planning of the exercise. This planning will not include the time and date of the exercise.

National Domestic Preparedness Office.—The effects of terrorism are felt at the local level. Local law enforcement and emergency first responders will be the first on the scene of any domestic terrorist event. The conferees are aware of the need expressed by State and local first responders to have a coordinated Federal preparedness effort to eliminate confusion, overlap and duplication

among Federal programs. To address this need, the Department of Justice has proposed to create a new office, the National Domestic Preparedness Office (NDPO), to serve as the entity to coordinate the Federal efforts for assisting emergency responders in domestic preparedness. The NDPO is proposed to include representatives from the Department of Justice's Office of Justice Programs (OJP), the Departments of Defense, Health and Human Services, Energy and Transportation, FEMA, and the Environmental Protection Agency, as well as representatives of State and local government. The conferees believe that full participation among all Federal, State and local entities is critical, and that the NDPO must recognize and build upon, rather than re-invest, existing programs, structures and capabilities.

While the conferees commend the Attorney General for her leadership on this matter and support the creation of a single office to coordinate interagency activities to maximize domestic preparedness efforts and eliminate duplication, the conferees are aware that some confusion and concerns exist regarding the functions and responsibilities of this office, particularly in relation to ongoing efforts at the Federal, State and local levels. The conferees note that final approval has not yet been given for the creation of the NDPO, and believe it is important that these issues be resolved. Therefore, the conferees direct the Attorney General to submit a final blueprint for the NDPO, developed in coordination with all other Federal, State and local participants, to the Committees on Appropriations no later than June 15, which clearly defines the roles of all agency participants in the office. In particular, the final blueprint shall include, but not be limited to, the following: (1) a detailed plan for consultation with the States in the development and implementation of a national strategy for domestic preparedness which builds on the existing all-hazard emergency management capabilities of local, State and Federal agencies, including designation of a single point of contact from each State and territory to interact with the NDPO; (2) establishment of a State and Local Advisory Group to provide input into program strategy and development which represents the various State and local disciplines involved in domestic terrorism response, including fire and rescue, HAZMAT, emergency medical and health services, emergency management, and State and local governments; and (3) a detailed plan outlining each Federal agency's role in the development and delivery of training and technical assistance, and their relationship to the NDPO. Such plan should fully utilize existing resources, programs and standards, including the National Domestic Preparedness Consortium, whenever possible. The conferees direct no further action be taken to augment the NDPO until approval has been given subject to standard reprogramming procedures.

State and local preparedness.—The consequences of terrorist acts, especially those involving chemical, biological, or unconventional explosive devices, may spread beyond the local community or city where the event occurred. A successful response to such an incident will depend upon the development of a closely coordinated and balanced local-State-Federal partnership. The conferees recognize the need for enhanced State-level involvement in consequence management and training preparedness activities, and urge that

all Federally-funded activities be coordinated at both the local and State levels. To ensure effective coordination, the conferees expect the Attorney General to request that the Governor of each State designate a lead state agency or other entity to develop and coordinate a comprehensive State-level domestic preparedness plan that is consistent with the national strategy. Such State strategies should be developed with input from the State and local emergency management, fire, law enforcement, emergency medical services and public health disciplines. To ensure maximum coordination and use of resources, the conferees expect each such State to be based on a State-level needs assessment which both identifies the needs of local and State first responders, and assesses the resources currently available at the local, State, and Federal level.

The conferees note that the fiscal year 1999 Department of Justice Appropriations Act included significant new funding to assist State and local first responders in becoming equipped and trained. To ensure that these resources meet the needs of the maximum number of communities possible and to ensure no duplication of effort, funding also was provided to conduct a comprehensive needs assessment. This needs assessment has not yet been completed. The conferees reiterate the importance of this needs assessment, and urge the Department to continue its activities in this area. In the interim, the conferees expect the Office of Justice Programs to submit to the Committees on Appropriations, no later than June 1, 1999, a plan for the distribution of funding provided in fiscal year 1999 to provide the maximum number of communities with a basic defensive (Tier One) capability to respond to domestic terrorist incidents. Such plan shall, at a minimum, require that in order to qualify to receive equipment funds, a grant applicant must certify that: (1) their application has been coordinated and developed in consultation with the fire, EMS, HAZMAT and law enforcement agencies operating within the jurisdiction; and (2) equipment purchased with grant funds will be deployed consistent with all mutual aid agreements.

FEDERAL PRISON SYSTEM

BUILDINGS AND FACILITIES

It is the intent of the conferees that unobligated funding available from fiscal year 1999 and prior year appropriations not required for current construction projects shall be used for partial site and planning for three facilities to house non-returnable criminal aliens being transferred from the Immigration and Naturalization Service. It is expected that one of these facilities will be located in a state in the Mid-Atlantic region.

DEPARTMENT OF COMMERCE AND RELATED AGENCIES
RELATED AGENCIES

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE
SALARIES AND EXPENSES

The conference agreement includes \$1,300,000 for costs of the World Trade Organization Ministerial Meeting to be held in Seattle, Washington, from November 30–December 3, 1999. The House and Senate bills did not include this funding.

DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

PERIODIC CENSUSES AND PROGRAMS

In response to a request, not formally transmitted, from the Administration, the conference agreement includes \$44,900,000 for additional activities necessary to ensure that the Bureau is fully prepared to implement a full enumeration in the 2000 Census as mandated by the recent Supreme Court decision. The conference agreement designates funds to be provided for the following purposes: \$10,900,000 is for additional costs to establish 520 Local Census Offices; \$4,200,000 is for preparation of training and field deployment kits for census enumerators; \$2,000,000 is for additional contract support and infrastructure costs for the Telephone Questionnaire Assistance program; \$9,100,000 is for automated data processing and telecommunications to support increased field enumeration; \$3,700,000 is for administrative systems to support additional field enumeration activities; and \$15,000,000 is for increased advertising and promotion programs. Language is also included requiring the President to submit a revised budget for the fiscal year 2000 costs associated with the completion of the 2000 Census. The conferees continue to be concerned with the adequacy and timeliness of the budget justification materials previously provided by the Bureau to support their budget submissions for the decennial census. Therefore, the conferees expect the revised budget submission for fiscal year 2000 submitted by June 1, 1999, to contain the detailed justification necessary to support the revised submission.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION
OPERATIONS, RESEARCH, AND FACILITIES

The conference agreement includes \$1,880,000 to support research, management and enforcement of new regulations in the Northeast Multispecies fishery, instead of \$3,880,000 as proposed by the Senate, of which \$1,880,000 was for this activity and \$2,000,000 was for the acquisition of shoreline data, and instead of no funding as proposed by the House.

The conference agreement does not include bill language designating \$2,000,000 for a regional applications program, which was

proposed in the Senate bill. The House bill did not contain a similar provision.

THE JUDICIARY

SUPREME COURT OF THE UNITED STATES

SALARIES AND EXPENSES

The conference agreement includes \$921,000 to enhance the capacity of the Supreme Court Police, as proposed in both the House and Senate bills.

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

The conferees reiterate that, of the total amount provided under this heading in Public Law 105–277, \$2,000,000 shall be for the Office of Defense Trade Controls, as previously stated in the Statement of Managers accompanying that Act. As provided in that Statement of Managers, this funding shall support the hiring of additional senior personnel (GS–13 through GS–15) and support staff to improve scrutiny of export license applications.

CHAPTER 2

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

CONSTRUCTION, GENERAL

The conference agreement deletes language proposed by the Senate appropriating \$500,000 for technical assistance related to shoreline erosion at Lake Tahoe, Nevada.

The conference agreement deletes language proposed by the Senate rescinding \$5,500,000 from the Lackawanna River, Scranton, Pennsylvania, project.

DEPARTMENT OF THE INTERIOR

BUREAU OF RECLAMATION

WATER AND RELATED RESOURCES

The conference agreement deletes language proposed by the Senate appropriating \$5,000,000 for repairs to the Headgate Rock Hydroelectric Project.

The conference agreement includes language appropriating \$1,500,000 for the purchase of water to restore water levels at the San Carlos Lake in Arizona.

CHAPTER 3

DEPARTMENT OF STATE

NATIONAL COMMISSION ON TERRORISM

The conference agreement appropriates \$839,500 for necessary expenses of the National Commission on Terrorism as authorized in the fiscal year 1999 Foreign Operations Act.

UNITED STATES COMMISSION ON INTERNATIONAL RELIGIOUS
FREEDOM

The conference agreement appropriates \$3,000,000 for necessary expenses of the United States Commission on International Religious Freedom as authorized by the International Religious Freedom Act of 1998 (Public Law 105-292).

DEPARTMENT OF THE TREASURY

INTERNATIONAL AFFAIRS TECHNICAL ASSISTANCE

The conference agreement appropriates \$1,500,000 for the operation and expenses of the International Financial Institution Advisory Commission and the International Monetary Fund Advisory Committee as authorized in the fiscal year 1999 Foreign Operations Act. The funds are to remain available until September 30, 2000.

CHAPTER 4

DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

The managers have agreed to a modification of the Senate language providing for the use of \$1,000,000 in previously appropriated funds for management of lands and resources for the processing of permits in the Powder River Basin for coalbed methane activities. The modification requires a written agreement between the coal mine operator and the gas producer prior to permit issuance if the permitted activity is in an area where there is a conflict between coal mining operations and coalbed methane production. The House had no similar provision.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

(TRANSFER OF FUNDS)

The managers have agreed to the transfer of \$1,136,000 for operation of Indian programs for spruce bark beetle control in Washington State as proposed by the Senate but have identified a different funding source. The source of these funds is the Forest Service National Forest System account instead of the Forest Service

Wildland Fire Management account as proposed by the Senate. The House had no similar provision.

The managers expect that these funds will be deducted from appropriations otherwise available for the Forest Service's Washington, DC headquarters general administration activity. The specific reductions must be approved, in advance, by the House and Senate Appropriations Committees. The managers suggest that the reduction should come from the recently proposed headquarters staffing increases in the office of communications and the financial analysis office.

OFFICE OF THE SPECIAL TRUSTEE FOR AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

The managers have provided \$21,800,000 for Federal trust programs as proposed by the House instead of \$6,800,000 as proposed by the Senate.

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

WILDLAND FIRE MANAGEMENT

The managers have agreed to the use of \$100,000,000 in fiscal year 1998 unobligated carryover funds from the Wildland Fire Management account to repay funds previously advanced from the Knutson-Vandenberg (KV) fund for firefighting emergencies. The balance owed to the KV fund for prior year borrowing will still be \$393,000,000 after this partial repayment. The managers believe that the Administration should regularly transfer carryover funds from the wildland fire management account to the KV fund until the previously borrowed funds have been repaid in full.

GENERAL PROVISIONS—THIS CHAPTER

Section 3001.—The managers have modified language as proposed by the Senate authorizing the transfer of previously appropriated funds to Auburn University in Alabama for construction of a new forestry research facility. This language is a clarification of the fiscal year 1999 Forest Service reconstruction and construction appropriation. The modification removes the proviso that only \$4,000,000 be transferred during fiscal year 1999. The House had no similar provision.

Section 3002.—The managers have included language as proposed by the Senate restricting the issuance of a final rule on hardrock mining on Federal lands pending completion of a study being conducted by the National Academy of Sciences and an ensuing period for public comment on the rule. The House had no similar provision.

Section 3003.—The managers have included language as proposed by the Senate extending the moratorium on the issuance of a final rulemaking on crude oil valuation until October 1, 1999 or until there is a negotiated agreement, whichever comes first. The House had no similar provision.

The managers have not included language as proposed by the Senate (section 2307) prohibiting implementation of a reorganization in the Office of the Special Trustee for American Indians for the balance of fiscal year 1999. The House had no similar provision.

The managers are concerned that the Department of the Interior may have strayed from the vision of the American Indian Trust Fund Management Reform Act of 1994, P.L. 103-412 (1994 Act) in a number of areas. The 1994 Act created the Office of the Special Trustee for American Indians in order to establish an "entity with the knowledge and authority to ensure that reform takes place and coordinates that action."

On March 3, 1999, the Senate Committee on Indian Affairs and the Senate Committee on Energy and Natural Resources held a joint hearing on trust management practices in the Department and the reorganization of the Office of the Special Trustee by the Secretary of the Interior without consultation with the Special Trustee.

The managers are also concerned with the lack of consultation with individuals and Indian tribal account holders who were assured that the Special Trustee would provide an authoritative and independent voice representing their concerns within the Department.

The General Accounting Office (GAO) recently expressed strong concerns that the Department has also failed to accomplish one of the Act's goals: the creation of a "strategic plan for all phases of trust management to ensure the Secretary's trust responsibilities are properly discharged." Although the Secretary has indicated that the Department's July 1998 High Level Implementation Plan provides such a strategic plan, numerous individuals and entities have expressed strong reservations about the Plan.

Based on these concerns, the Chairman of the Committee on Indian Affairs has indicated that he intends to make continued monitoring and compliance with the 1994 Act a significant part of the Committee's oversight efforts. The managers, therefore, are reserving judgment on futures appropriations. The managers expect the Department to ensure that the resources dedicated for purposes of trust improvements are indeed well spent in compliance with the 1994 Act.

Section 3004.—The managers have included language as proposed by the Senate clarifying that the fiscal year 1999 moratorium on new and expanded self-determination contracts applies only to the Bureau of Indian Affairs and the Indian Health Service. The House had no similar provision.

The managers have not included language as proposed by the Senate (section 2323) regarding Class III Indian gaming. The House had no similar provision.

Section 3005.—The managers have included language as proposed by the Senate which requires that funds provided in fiscal year 1999 for the Borough of Ketchikan to participate in a cooperative study on the feasibility and dynamics of manufacturing veneer products in Southeast Alaska, including the establishment of a veneer operation in Ketchikan, shall be paid in lump sum and be considered a direct payment for the purposes of all applicable laws,

but may not be used for lobbying. This section also includes language proposed by the Senate similarly treating payments to the City of Colorado Springs using funds previously appropriated for reconstruction of the Pike's Peak Summit House in Colorado. The House had no similar provisions.

The House managers have not agreed to language proposed by the Senate (section 2328) banning implementation of regulations restricting fishing in Glacier Bay National Park pending the resolution of the State of Alaska's anticipated lawsuit concerning ownership and jurisdiction relating to Glacier Bay waters, so that provision has been deleted.

Section 3006.—The managers have included a provisions restricting the implementation of the Department of the Interior Solicitor's opinion of November 7, 1997 concerning millsites under the general mining law with respect to the Crown Jewel project and to patent applications and plans of operation submitted prior to the date of enactment of this Act.

The managers are very concerned about the effect of the Solicitor's opinion dealing with the implementation of the Mining Law of 1872 in that it limits the number of millsites to one five-acre millsite per patent. Executive Departments typically implement laws through regulation. The regulatory process allows all affected parties to express their views through an open, public comment process. In the case of a solicitor's opinion, there is no public comment or appeal process before implementation.

This opinion is particularly troubling because both the Bureau of Land Management and the Forest Service have been approving patents with more than one five-acre millsite per patent based on procedures outlined in their operations manuals. To ascertain the impact of this opinion, the managers direct the Department of the Interior and the Forest Service to provide a report to the House and Senate Committees on Appropriations no later than August 31, 1999. The report should detail by State all past, present and pending mining operations, including all grandfathered mineral patent applications and plans of operation, that could be impacted by the Solicitor's opinion of November 7, 1997.

The managers considered but did not adopt a provision that would have prohibited the listing of the Alabama sturgeon under the Endangered Species Act and the designation of critical habitat for the balance of fiscal year 1999. The Director of the United States Fish and Wildlife Service has assured the managers that neither she nor the Secretary of the Interior will accelerate the decision process for this candidate species. The managers understand, based on a letter from the Director, that there are several other species ahead of the Alabama sturgeon in the processing queue for listing consideration and that a decision with the respect to the Alabama sturgeon will not be made prior to March 2000. The managers expect the Secretary and the Service to live up to those commitments and to work carefully with the State on conservation planning efforts for the Alabama sturgeon.

CHAPTER 5

DEPARTMENT OF HEALTH AND HUMAN SERVICES

OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT

The conference agreement includes \$1,000,000 to reduce the backlog of pending nursing home appeals before the Departmental Appeals Board. The Senate bill included \$1,400,000 for this purpose. The House did not include funding for this activity in its bill and the President did not request funding.

DEPARTMENT OF EDUCATION

EDUCATION FOR THE DISADVANTAGED

The conference agreement includes \$56,377,000 for Concentration grants under the Title I program as a fiscal year 2000 advance appropriation to become available on October 1, 1999 for academic year 1999–2000.

The conferences understand that the Department of Education has interpreted a “hold harmless” provision included in the fiscal year 1999 appropriations bill to apply only to school districts that first qualify for Concentration grants on the basis of the percentage or number of poor children within the school district. Only after a school district meets the eligibility criteria would the Department apply the hold harmless and award the Concentration grant. Under the Department’s interpretation, over 1500 school districts would lose their Title I Concentration grant in academic year 1999–2000.

The conference agreement includes language that clarifies the fiscal year 1999 appropriations law to direct the Department of Education to hold harmless all school districts that received Title I Concentration grants in fiscal year 1998. The conference agreement further clarifies that the allocations made through applying this hold harmless will not be taken into account in determining allocations under other education programs that use the Title I formula as a basis for funding distribution. Neither the House nor the Senate bills contained these provisions.

HIGHER EDUCATION

(TRANSFER OF FUNDS)

The conference agreement transfers \$1,500,000 from the Education Research, Statistics, and Improvement account to the Higher Education account to be used to provide funding for the University of the District of Columbia. UDC has recently qualified for funding under the Historically Black Colleges and Universities program and this funding level is the amount they are due under the HBCU funding formula.

RELATED AGENCY

CORPORATION FOR PUBLIC BROADCASTING

The conference agreement includes a total of \$48,000,000 in fiscal years 1999 and 2000, the same as the President's request, to enable National Public Radio, through the Corporation for Public Broadcasting, to proceed with contract negotiations for replacement satellite services. The agreement provides \$30,700,000 in fiscal year 1999 and \$17,300,000 in 2000.

The House bill provided \$48,000,000 for the replacement satellite, with \$30,600,000 made available in fiscal year 1999 and the remainder in fiscal year 2000. The Senate provided \$18,000,000 in fiscal year 1999 and report language stating that the balance of resources would be provided during the regular fiscal year 2000 appropriations process.

GENERAL PROVISION, THIS CHAPTER

WHITE RIVER SCHOOL DISTRICT, SOUTH DAKOTA

The conference agreement includes bill language directing the Secretary of Education to provide, from unobligated balances in the Impact Aid program, not more than \$239,000 to the White River School District #47-1, White River, South Dakota to repair damage caused by water infiltration at the White River High School. This provision is the same as in the Senate bill.

The House bill contains no similar provision and the President did not request funding for this activity.

CHAPTER 6

LEGISLATIVE BRANCH

CONGRESSIONAL OPERATIONS

HOUSE OF REPRESENTATIVES

SALARIES AND EXPENSES

SALARIES, OFFICERS AND EMPLOYEES

(RESCISSION)

The conferees have included a rescission of funds of \$3,521,000 and an appropriation of an identical amount to remain available until expended. This action will provide resources for replacing a House payroll system that cannot be completed in FY 1999.

ARCHITECT OF THE CAPITOL

CAPITOL BUILDINGS AND GROUNDS

HOUSE OFFICE BUILDINGS

HOUSE PAGE DORMITORY

The conferees have included \$3,760,000 for the House Page Dormitory as contained in the House bill, amended to omit designa-

tion of a special location. If locations other than 501 1st St., S.E., are taken under serious consideration, the Architect of the Capitol is directed to inform the Committee on Appropriations concerning cost and related considerations. It is expected that, in addition to the House Office Building Commission and the Page Board, the Architect of the Capitol will consult with the Committee on Appropriations, the Committee on Transportation and Infrastructure, and the Committee on House Administration on matters within their jurisdiction regarding the Page Dormitory project.

O'NEILL HOUSE OFFICE BUILDING

The conferees have provided \$1,800,000 for life safety renovations at the O'Neill House Office Building as contained in the House bill.

ADMINISTRATIVE PROVISIONS

The conferees have included two administrative provisions as contained in the House bill. The conferees have added a provision regarding certain lump sum House leadership allowances.

In addition, the conferees have established a pilot program in 1999 under the leadership of the Librarian of Congress to bring up to 3,000 emerging Russian political leaders to the United States for no more than 30 days each. The Senate is transferring \$10 million of its own funds to finance the program during fiscal year 1999. The purpose of the program is to give Russian leaders from all levels of government first hand exposure to the American free market economic system and operation of American democratic institutions. Various local governments and organizations throughout the United States would be hosts to the Russians.

The Librarian is given the authority to administer the program in the first year to expedite the establishment of the program. The President would designate an executive branch agency to administer the program in subsequent years.

CHAPTER 7

DEPARTMENT OF DEFENSE

MILITARY CONSTRUCTION

The conferees have provided a total of \$31,400,000 for storm related damage to facilities and family housing improvements. Offsets to cover the cost of these are included in Title IV of this Act. The projects are as follows:

[In thousands of dollars]

Army National Guard: Tennessee, Jackson: Limited Army Aviation Support Facility	\$6,400
Family Housing, Army: Puerto Rico, Ft. Buchanan: Improve 215 units	25,000

CHAPTER 8

DEPARTMENT OF TRANSPORTATION AND RELATED
AGENCIES

NATIONAL TRANSPORTATION SAFETY BOARD

SALARIES AND EXPENSES

The conference agreement provides \$2,300,000 for the National Transportation Safety Board for expenses resulting from the crash of TWA Flight 800. These funds will cover rental costs associated with the housing of the wreckage in Calverton, New York. The conferees do not plan to continue funding rental expenses at the Calverton facility in future fiscal years. The House and the Senate proposed no similar provision.

CHAPTER 9

DEPARTMENT OF THE TREASURY

BUREAU OF ALCOHOL, TOBACCO AND FIREARMS

SALARIES AND EXPENSES

The conferees agree to provide an appropriation of \$4,500,000 for the Bureau of Alcohol, Tobacco and Firearms for the expansion of the National Tracing Center, to remain available until expended.

U.S. POSTAL SERVICE

PAYMENTS TO THE POSTAL SERVICE FUND

The conferees agree to provide an appropriation of \$29,000,000 for reimbursements to the Postal Service as authorized by 39 U.S.C. 2401(d), as proposed by the House instead of no appropriation, as proposed by the Senate.

EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED
TO THE PRESIDENT

FEDERAL DRUG CONTROL PROGRAMS

HIGH INTENSITY DRUG TRAFFICKING PROGRAMS

The conferees agree to provide an additional \$2,500,000 for the High Intensity Drug Trafficking Areas Program, instead of no appropriation, as proposed by the House and \$1,250,000, as proposed by the Senate. The conferees direct that these funds be targeted as follows: \$750,000 to the New Mexico HIDTA for Rio Arriba County, Santa Fe County, and San Juan County, New Mexico; \$500,000 for national anti-methamphetamine efforts; \$750,000 for the Arizona HIDTA to be provided to the U.S. Border Patrol for assistance in counterdrug efforts related to illegal immigration along the border in southern Cochise County, Arizona, subject to prior approval of the Committees on Appropriations; and \$500,000 for the Washington-Baltimore HIDTA for support of the Cross-Border Initiative between Washington, DC and Prince George's County, Maryland. The conferees emphatically support linking funding to a program's

performance, and therefore support evaluation efforts underway at ONDCP. Therefore, the conferees expect that the performance of the HIDTAs funded through this appropriation will be subject to the same performance standards and measures to be applied to the HIDTA program overall.

CHAPTER 10

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

PUBLIC AND INDIAN HOUSING

HOUSING CERTIFICATE FUND

Deletes language proposed by the Senate delaying the availability of \$350,000,000 for expiring or terminating section 8 contracts until October 1, 1999.

COMMUNITY PLANNING AND DEVELOPMENT

COMMUNITY DEVELOPMENT BLOCK GRANTS

Inserts language reallocating \$3,446,000 of unobligated, no-year funds in the CDBG account for which there is no identified use. HUD is directed to provide these funds for unfunded service coordinator programs that did not receive funding in the original Notice of Funding Availability (NOFA).

FEDERAL HOUSING ADMINISTRATION

FHA—MUTUAL MORTGAGE INSURANCE PROGRAM ACCOUNT

Increases the commitment level for the Federal Housing Administration's Mutual Mortgage Insurance Fund from \$110,000,000,000 to \$140,000,000,000. The additional authority is needed because HUD projections indicate that the existing limitation could be exceeded before the end of the fiscal year.

GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

GUARANTEES OF MORTGAGE-BACKED SECURITIES LOAN GUARANTEE PROGRAM ACCOUNT

Increases the commitment authority for the Government National Mortgage Association from \$150,000,000,000 to \$200,000,000,000. The additional authority is needed because 78 percent of the existing authority has been committed, and HUD projects that the existing limitation could be exceeded before the end of the fiscal year.

MANAGEMENT AND ADMINISTRATION

SALARIES AND EXPENSES

Deletes language proposed by the Senate rescinding \$3,400,000 from HUD's salaries and expenses account and transferring it to the CDBG account for service coordinators and congregate services.

OFFICE OF INSPECTOR GENERAL

Deletes bill language as proposed by the Senate. The conferees direct the Office of Inspector General (OIG) and the General Accounting Office (GAO) to conduct an audit of HUD to assess the extent that HUD has been in compliance with the Department of Housing and Urban Reform Act of 1989 during the last two years. The conferees direct the OIG and GAO to produce a report on this matter within six months of enactment and a final report within 12 months of enactment, and to transmit them to the House and Senate Committees on Appropriations.

INDEPENDENT AGENCY

NATIONAL CREDIT UNION ADMINISTRATION

CENTRAL LIQUIDITY FACILITY

Inserts new language requiring that during fiscal year 2000, gross obligations of the Central Liquidity Facility (CLF) for the principal amount of new direct loans to member credit unions shall not exceed the statutory limitation. The conferees take this action only to deal with the unlikely scenario that credit unions could experience excessive withdrawals as a result of the millennium date change and may need additional liquidity resources. Furthermore, the conferees intend that prudent and appropriate administrative remedies should be devised as quickly as possible by the National Credit Union Administration, working with the Federal Reserve and the Department of the Treasury, to guarantee that a strong safety net is in place to deal with any potentially unusual Y2K circumstances.

GENERAL PROVISIONS—THIS CHAPTER

Inserts language proposed by the House for targeted economic initiatives to Project Restore and the Los Angeles City Civic Center Trust. The conferees have agreed to include a technical correction to language included in Public Law 105–276 which clarifies that \$250,000 is for the Los Angeles Civic Center Public Partnership to revitalize the Civic Center neighborhood, and that \$100,000 is for the Southeast Rio Vista Family YMCA to develop a child care center in Huntington Park, California. The Senate did not include a similar provision.

Inserts new language clarifying that funds made available in Public Law 105–276 shall be made available to the Maryland Department of Housing and Community Development for work associated with building Caritas House and with expanding the St. Ann Adult Medical Day Care facility.

Inserts new language allowing retention of land disposition proceeds associated with an Urban Renewal Project in the Township of North Union, Pennsylvania.

Inserts language proposed by the Senate which clarifies that funds appropriated in Public Law 105–276 under the Environmental Protection Agency, State and Tribal Assistance Grants to meet sewer infrastructure needs associated with the 2002 Winter

Olympics shall be provided to Wasatch County, Utah, for both water and sewer infrastructure needs.

Inserts language proposed by the Senate which transfers \$1,300,000 of funds appropriated in Public Law 105-276 under the Environmental Protection Agency, Environmental Programs and Management for Project SEARCH, to State and Tribal Assistance Grants for Project SEARCH water and wastewater infrastructure needs in the State of Idaho through the Region IV Development Association in Twin Falls, Idaho.

Inserts new language which clarifies that funds appropriated in Public Law 105-276 under the Environmental Protection Agency, State and Tribal Assistance Grants to meet wastewater infrastructure needs for Grand Isle, Louisiana, may also be used for drinking water supply needs.

CHAPTER 11

GENERAL PROVISIONS—THIS TITLE

Senate Section 2304. The conference agreement includes language proposed by the Senate clarifying administrative costs in the honey program, with a technical correction to a citation. The House had no similar provision.

Senate Section 2309. The conference agreement does not include language to extend chapter 12 bankruptcy authorization as proposed by the Senate. The House had no similar provision. Similar language was enacted as part of Public Law 106-5.

Senate Section 2310. The conference agreement includes language proposed by the Senate that amends the Consolidated Farm and Rural Development Act by deleting the statutory reference to the capital replacement reserve requirement for guaranteed farm loans, and by reinstating a statutory reference for a ten percent cash flow margin for restructuring direct farm loans. The House had no similar provision.

Senate Section 2318 and House Section 2002. The conference agreement includes language proposed by both the House and the Senate regarding loan deficiency payments for club wheat producers.

Senate Section 2322. The conference agreement does not include Section 2322, as proposed by the Senate, expressing the Sense of the Senate regarding a pending sale of wheat to Iran. The House had no similar provision. Recent actions by the Administration have addressed sanctions policy on commercial sales of agricultural commodities to certain countries, including Iran.

Sec. 3021.—The conference agreement includes a provision, modified from language proposed in the Senate bill, allowing the Attorney General to transfer up to \$4,300,000 from funds available to the Department of Justice to pay the remaining claims for restitution as required by the Civil Liberties Act of 1988, and as pursuant to the court order issued in the case of Carmen Mochizuki et al v. United States (case No. 97-294C, United States Court of Federal Claims). The conferees expect this provision to be implemented in accordance with sections 107 and 605 of the Departments of Commerce, Justice, and State, the Judiciary, and Related

Agencies Appropriations Act, 1999. The House bill did not address this matter.

Sec. 3022.—The conference agreement includes a provision, slightly modified from language included in the Senate bill, to prohibit the taking of Cook Inlet beluga whales under the Marine Mammal Protection Act prior to October 1, 2000, unless pursuant to a cooperative agreement between the National Marine Fisheries Service and affected Alaska Native organizations. The House bill did not contain a similar provision.

Sec. 3023.—The conference agreement includes a provision repealing Section 626 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1999 to provide full year availability for appropriations provided in that Act. Neither the House nor Senate bills addressed this matter.

Sec. 3024.—The conference agreement includes a provision to allow the payment of available funds to facilitate the payment of grants to victim service organizations and public agencies that will provide emergency or ongoing assistance to the victims of the bombing of Pan Am flight 103 and their families. The provision would include assistance to family members for travel to the Netherlands for the trial of the defendants in the bombing case. Neither the House nor Senate bills addressed this matter.

Sec. 3025.—The conference agreement includes a provision, not included in the House bill, to modify section 617 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1999, to make permanent the moratorium on the entry of new factory trawlers into the Atlantic herring and mackerel fishery until certain actions are taken by the appropriate fishery management councils.

The conference agreement includes a provision proposed in the House bill, and not included in the Senate bill, amending the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1999, to extend the availability of funds included for the Commission on Holocaust Assets in the United States to September 30, 2000.

The conference agreement includes a provision, modified from language proposed in the Senate bill, making technical corrections to the American Fisheries Act (Title II, Division C of Public Law 105–277).

The conference agreement includes a provision, modified from language proposed in the Senate bill, which makes corrections to section 113 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1999, relating to eligibility of Alaska Native organizations for Department of Justice grants.

The conferees agree to retain section 3029, as proposed by the Senate, which authorizes the use of funds received pursuant to housing claims for construction of an access road and for real property maintenance projects at Ellsworth Air Force Base.

DEPARTMENT OF DEFENSE—CIVIL

CORPS OF ENGINEERS

OPERATION AND MAINTENANCE, GENERAL

The conference agreement includes language proposed by the Senate directing a statutory reprogramming of \$800,000 for preliminary work associated with a transfer of Federal lands to certain tribes and the State of South Dakota and for cultural resource protection activities, amended to delete language proposed by the Senate providing funds to the Lower Brule Sioux Tribe and the Cheyenne River Sioux Tribe.

PROHIBITION ON TREATING ANY FUNDS RECOVERED FROM TOBACCO COMPANIES AS AN OVERPAYMENT FOR THE PURPOSES OF MEDICAID

The conference agreement includes language proposed by the Senate which amends section 1903(d)(3) of the Social Security Act (42 U.S.C. 1396b(d)(3)) to prohibit any Medicaid-related funds recovered or paid to a State as part of a settlement or judgment reached in litigation the State initiated or pursued against one or more tobacco companies being treated as an overpayment for purposes of the Medicaid statute. The House bill contained no similar provision.

The conferees recognize that, absent Congressional action, the issue of the Federal share of funds recovered under such settlements or judgments would be subject to litigation over the next several years, delaying the availability of these funds and putting planned State uses on hold. The conferees have adopted the Senate language in order to permit States which are delaying their plans for the use of these funds the certainty they need to plan their initiatives. The conferees encourage the States to use a significant portion of any tobacco settlement or judgment on smoking cessation and prevention programs, as well as other critical public health programs, such as expanding health care benefits to low income children and adults.

FINDINGS AND SENSE OF SENATE REGARDING SEQUENTIAL BILLING POLICY FOR HOME HEALTH PAYMENTS UNDER THE MEDICARE PROGRAM

The conference agreement does not contain a Sense of the Senate provision regarding the sequential billing policy for home health payments under Medicare as proposed by the Senate.

The Balanced Budget Act of 1997 shifted funding for certain home health visits under Medicare from part A (Hospital Insurance) to part B (Medical Insurance). In a Sense of the Senate resolution, included in the Senate bill, the Senate indicated that certain Health Care Financing Administration regulations and administrative decisions have slowed down claims processing resulting in the financial hardship and closing of home health agencies.

The House bill contained no similar provision.

FIREFIGHTERS PAY

The conferees agree to include a provision making a technical change to the treatment of firefighters under section 628(f) of the fiscal year 1999 Treasury and General Government Appropriations Act, as proposed by the Senate, instead of no provision, as proposed by the House.

HOWELL T. HEFLIN POST OFFICE BUILDING

The conferees agree to a provision designating a United States Postal Service facility under construction at Tuscumbia, Alabama as the “Howell T. Heflin Post Office Building”.

SAN JOAQUIN, CALIFORNIA

The conferees agree to include language which corrects the terms of a land conveyance in San Joaquin, California that was included in Public Law 105–277.

FERGUS FALLS, MINNESOTA

The conferees agree to direct the Administrator of the General Services Administration to purchase from the Postal Service the building in Fergus Falls, Minnesota where the U.S. Bankruptcy Court and the U.S. District Court sit.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

FEDERAL CAPITAL LOAN PROGRAM FOR NURSING

(RESCISSION)

The conference agreement includes a rescission of \$2,800,000 from the Federal Capital Loan Program for Nursing, the same level as in the House bill. The President requested no rescission from this account and the Senate did not include a rescission in its bill. The amounts rescinded are unobligated balances in an account that has been inactive for more than eight years.

DEPARTMENT OF EDUCATION

EDUCATION RESEARCH, STATISTICS AND IMPROVEMENT

(RESCISSION)

The conference agreement rescinds \$6,500,000 from this account, instead of \$6,800,000 as proposed by the House and \$8,000,000 as proposed by the Senate. The President proposed no rescission for this account. The \$6,500,000 will be taken from funds which the Administration has indicated are in excess of what is necessary for an evaluation of voluntary national test development.

DEPARTMENT OF DEFENSE

MILITARY CONSTRUCTION

(RESCISSIONS)

The conferees recommend rescissions totaling \$31,400,000 in fiscal year 1999 funds. These reflect inflation and foreign currency fluctuation savings of \$25,000,000 and \$6,400,000 from the Base Realignment and Closure Account, Part IV.

The conference agreement includes a rescission of \$665,000 in contract authority from the trust fund share of transit programs provided in Public Law 102–240 under 49 U.S.C. 5338(a)(1), as proposed by the House. The Senate bill contained no similar rescission.

INTERSTATE TRANSFER GRANTS—TRANSIT

The conference agreement includes a rescission of \$600,000 in unobligated balances of interstate transfer grants—transit, as proposed by the House. The Senate bill contained no similar rescission. The conferees direct the Federal Transit Administration to reduce only those available balances for projects for which funds were allocated before fiscal year 1995.

DEPARTMENT OF THE TREASURY
BUREAU OF ALCOHOL, TOBACCO AND FIREARMS

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

PUBLIC AND INDIAN HOUSING

ANNUAL CONTRIBUTIONS FOR ASSISTED HOUSING

(RESCISSION)

Inserts new language rescinding \$350,000,000 in unobligated and unexpended section 8 recaptures. Because the section 8 renewal account was fully funded in fiscal year 1999, these funds are not necessary during the current fiscal year.

In fiscal year 2000, section 8 renewal needs are \$13,522,000,000. As proposed by the President, these recaptured funds could offset the fiscal year 2000 request, thereby reducing the total appropriation for fiscal year 2000. Clearly, the conferees understand that the section 8 renewal account must be fully funded in order to protect the homes of those families who rely on this assistance.

COMMUNITY PLANNING AND DEVELOPMENT

COMMUNITY DEVELOPMENT BLOCK GRANTS

(RESCISSION)

Rescinds \$230,000,000 of unobligated balances for disaster relief instead of \$313,600,000, as proposed by the Senate. The House did not include a similar provision. The conferees note that funds have been included in FEMA's account to deal with issues relating

to disaster relief. The Department is directed to award the remaining funds in accordance with announcements made heretofore by the Secretary, including allocations made pursuant to the March 10, 1999 notice published in the Federal Register, as expeditiously as possible.

GENERAL PROVISION—THIS TITLE

Senate Section 3001. The conference agreement does not include language proposed by the Senate repealing Division B, title V, chapter 1 of Public Law 105–277 providing emergency appropriations to the Agricultural Research Service for counter-narcotics research proposed by the Senate. The House had no similar provision. The conference agreement rescinds \$22,466,000 of these funds, reflecting the obligation of \$534,000 of these monies. Additional provisions regarding counter-narcotics research are included elsewhere in this report.

TITLE V

TECHNICAL CORRECTIONS

The conference agreement includes four technical corrections related to the Agriculture portion of Public Law 105–277 proposed by both the House and the Senate, with modifications.

House Section 3002. The conference agreement does not include language proposed by the House extending the availability of counter-drug research funds. The Senate had no similar provision.

The conference agreement includes four technical corrections to the fiscal year 1999 Appropriations Act for the Department of the Interior and Related Agencies as proposed by the Senate. The House had similar provisions for three of these corrections. The Senate added a provision revising an earmark in the Operation of Indian Programs account.

The conference agreement deletes a provision included in both the House and Senate versions of the bill regarding design of a CD ROM product.

The conferees have included two technical corrections as contained in the House bill and the Senate amendment for the Legislative Branch.

The conferees have included language, proposed by the Senate, which makes a technical correction to the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999 (Public Law 105–277) under the heading “Family Housing, Navy and Marine Corps” to include Hurricane George.

The conference agreement includes a provision proposed by the Senate that clarifies the scope of certain bus and bus facilities projects contained in the Federal Transit Administration’s capital investment grants program in fiscal year 1999. The House bill contained no similar provision. The conferees direct that funds provided for the Canton-Akron-Cleveland commuter rail project in the Department of Transportation and Related Agencies Appropriations Act for fiscal year 1999 shall be available for the purchase of rights-of-way in addition to conducting a major investment study to examine the feasibility of establishing commuter rail service.

The conference agreement includes a provision proposed by the Senate that increases the obligation limitation for the federal-aid highways ferry boat and terminal program in fiscal year 1999 from \$38,000,000 to \$59,290,000 to reflect the sum of both fiscal years 1998 and 1999 program funding levels. The House bill contained no similar provision.

The conferees have agreed to include a technical correction to the Federal Vacancies Reform Act of 1998 as proposed by the Senate. The House had no similar provision.

TITLE VI—GENERAL PROVISIONS, THIS ACT

The conference agreement includes provisions which extend the Federal Aviation Administration's airport improvement program (AIP) and war risk insurance program through August 6, 1999 at the same rate as included in the Department of Transportation and Related Agencies Appropriations Act, 1999. Under current law, the authorization for the AIP program will expire on May 31, 1999.

It is the conferees' understanding that this provision will cause no increase in fiscal year 1999 budget authority or outlays. The conference agreement also includes provisions releasing an additional \$30,000,000 in passenger facility fee/airport development project grant funding to the Metropolitan Washington Airports Authority to continue the authority's capital development programs. The Senate bill proposed to extend the airport improvement program and the war risk insurance program through May 31, 1999. The house bill contained no similar provisions.

The conference agreement includes a provision proposed by the Senate that extends the Secretary of Transportation's authority to set Alaskan mail rates. The House bill contained no similar provision.

The conference agreement deletes a provision proposed by the House that would have made funds available to continue the national advanced driving simulator in fiscal year 1999 from funds previously appropriated to the National Highway Traffic Safety Administration. The Senate bill contained no similar provision. The provision is no longer necessary as funding to continue the national advanced driving simulator in fiscal year 1999 was addressed in a reprogramming recently approved by the House and Senate Committees on Appropriations.

The conference agreement includes a provision proposed by the House that re-designates a section number in the Transportation Equity Act for the 21st Century. The Senate bill contained no similar provision.

The conferees agree to retain section 6004, as proposed by the House, which expresses the sense of the Congress that there be parity in the adjustments to compensation between military personnel and civilian employees.

The conference agreement deletes language proposed by the Senate providing relief to certain natural gas producers in Kansas.
